Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. As a low volume user, I feel that I would be paying a disproportionate share of this tax.

I use my cell phone for safety, security and convenience. I don't want to lose these benefits so that larger users can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Sincerely,

John White
